TEACHERS' SPEAK

Being a teacher is a profoundly rewarding journey that touches the lives of students in ways both big and small. The opportunity to educate, inspire, and shape young minds is a privilege that brings immense fulfilment and purpose. As a teacher, every day presents a chance to make a positive impact, In-

still knowledge, and foster growth in the hearts and minds of students. Transitioning to the realm of English teaching adds a layer of depth and richness to this rewarding experience. The beauty of literature, the nuances of language, and the power of storytelling all converge in the English classroom. As an English teacher, the joy of

delving into the world of words, exploring the intricacies of grammar, and unraveling the mysteries of poetry is unparalleled. The role of an

English teacher goes beyond imparting knowledge; it involves nurturing creativity, honing critical thinking skills, and fostering a deep appreciation for the written word. The ability to witness students' literary journeys, to see them find their voice through writing, and to witness their growth as confident communicators is a privilege like no other. Being an English teacher is not just a profession; it's a calling to ignite a

passion for language and literature that will accompany students throughout their lives.

The one who cares

With wisdom vast,
Hearts full of care ,
You guide me gently,
Always there.

In classrooms bright,
With lessons long,
You teach us eight,
You make us strong.

Through every trial,
Every test,
You pushed us onwards
To our best.

A spark you light in our minds,
The seeds of knowledge gently sprung.

-Ayesha

WHAT DOES A TEACHER MEAN TO YOU?

First of all, we should talk about what the word teacher is and what it means and from where it is derived. Basically the word teacher is derived from the proto German word [Taikija] which means to instruct someone that a teacher always does. And if we talk about its meaning, then according to me the word teacher stands for tremendous, educated, amazing, curious, helpful, encouraging resource. To describe a teacher a little bit more, there is a great quote from Sir Albert Einstein. "It is the supreme art of teachers to awaken joy in creative expression and knowledge." This quote would barely

be of 2-3 lines but has a lot of hidden meaning in it. By using this quote, Mr. Einstein is trying to describe that teachers are the pillars of education. They play a vital role in shaping the minds of future generations. They are the ones who support and act as a mentor for the students physically, emotionally and socially. Teachers are the ones who help students to develop confidence and teach them the importance of honesty, respect, etc to make them better individuals. Teachers are just like our second parents, we should respect them.

THANK YOU,
TEACHER!

WE APPRECIATE ALL THAT YOU DO.

A teacher is so much more than just an instructor; they are a guiding light in our lives. From the moment I met my teachers, I knew they would change my world. Their encouragement pushes me to reach for my dreams and their lessons are like stories that shape how I see life.

To me, a teacher represents care and support, always putting their students first. Even when they challenge me, I know it's out of love and a desire to see me grow. Their wisdom stays with me, reminding me that I am capable of great things.

TEACHERS OUR GUIDING PROTECTORS

As cold winds blow, blankets protect us from the chill. In the same way, our teachers shield us from big and small challenges alike.

A teacher is like a second mother to us, always putting our well-being before their own. Our teachers think of us first, nurturing our growth and dreams.

With their guidance and support, we have full confidence in a bright future ahead because we respect and value our teachers.
